Serbian Spatial Planners Association and the University of Belgrade - Faculty of Geography, in cooperation with the Ministry of Education, Science and Technological Development and the Municipality of Veliko Gradiste, are organizing the ninth scientific-professional conference with international participation "LOCAL SELF-GOVERNMENT IN PLANNING AND ARRANGEMENT OF SPACE AND SETTLEMENTS", Srebrno jezero, June 16-18, 2022.

The whole mosaic of spatial and development problems, in a special way, deepens the existing and imposes new challenges for local communities, which motivated us to, in addition to traditional topics related to the legal and institutional framework of planning and arrangement of space and settlements, as well as creating spatial and urban plans, this time we pay special attention to the issue of defining public interest in spatial and urban planning, rural development planning, as well as the impact of demographic and migration processes on the development of local communities.

In that regard, we expect that the practical experiences and conclusions that will be presented will provide a quality basis for the advancement and development of science and practice and make a significant contribution to management structures at all levels of government, especially local authorities in solving problems that they have been facing.

In parallel with the Conference, the exhibition named "Planners Networking 4" will be organized, where spatial and urban planning institutions from Serbia and the surrounding countries will have the opportunity to present planning documents of all levels adopted in the period from 2018 to 2022.

Positive experiences from the previous eight conferences are a good precondition for organizing another successful one.

Therefore, having in mind the importance and actuality of the topics, we invite you to take part in the conference and contribute to its successful implementation and formation of quality conclusions that will enable further affirmation and improvement of planning and arrangement of space and development of local self-government.

## CONFERENCE COMMITTEES

### Coordinators:

Prof. Dr. Velimir Šećerov, University of Belgrade - Faculty of Geography  
Dr. Dejan S. Đorđević, president of the SSPA  
Dr. Zoran Radosavljević, Ministry of Construction, Transport and Infrastructure

### Scientific Committee:

Prof. Dr. Marija R. Jeftić, University of Belgrade - Faculty of Geography, president  
Prof. Dr. Dejan Filipović, University of Belgrade - Faculty of Geography
